## **PART 1: Annual Budget**

### **1.1 Mayor's Report**

*The Executive Mayors report will be handed out during the Budget meeting.*

### **1.2 Executive Summary**

The application of sound financial management principles for the compilation of the Municipality financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. A critical review was also undertaken of expenditures on noncore and 'nice to have' items. Key areas where savings were realized were on telephone and internet usage, printing, workshops, accommodation, and catering. Also referring to the Cost containment measures adopted by Council.

The Municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers. Furthermore, the Municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

National Treasury's MFMA Circular No. 94 were used to guide the compilation of the 2019/20 MTREF. The mSCOA version 6.3 was also introduced with the circulars and thus the budget tables were compiled and reported in terms of the said circulars.

The main challenges experienced during the compilation of the 2019/20 MTREF can be summarised as follows:

- The on-going difficulties in the national and local economy;
- Aging and poorly maintained water, roads and electricity infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- The increased cost of electricity (due to tariff increases from Eskom), which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be a point where services will no-longer be affordable;

# Setsoto Local Municipality – Annual Budget & MTREF 2019/20

---

- Wage increases for municipal staff that continue to exceed consumer inflation (Based on the ongoing negotiations between SALGA and Trade unions), as well as the need to fill critical vacancies.
- Affordability of capital projects – original allocations had to be reduced and the operational expenditure associated with prior year's capital investments needed to be factored into the budget as part of the 2019/20 MTREF process; and

The following budget principles and guidelines directly informed the compilation of the 2019/20 MTREF:

- The 2018/19 Adjustments Budget priorities and targets, as well as the base line allocations contained in that Adjustments Budget were adopted as the upper limits for the new baselines for the 2019/20 annual budget;
- Intermediate service level standards were used to inform the measurable objectives.
- Tariff and property rate increases should be affordable, except where there are price increases in the inputs of services that are beyond the control of the municipality, for instance the cost of providing water and electricity. In addition, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;

## 1.3 Recommendation

It is recommended that Council at its meeting to be held on 31 May 2019, consider the approval of the 2019/20 budget in terms of section 24 of the MFMA. The annual budget-

- 1.1. Must be approved before the start of the budget year;
- 1.2. Is approved by the adoption of a Council resolution;
- 1.3. Must be approved together with the adoption of resolutions-
  - 1.3.1 Imposing any municipal tax for the budget year;
  - 1.3.2 Setting any municipal tariffs for the budget year; and
  - 1.3.3 Approving any changes to the municipality's budget-related policies.
- 1.4. The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are considered;

2. The Council of Setsoto Local Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) should also consider approving the following for implementation;

- 2.1. the tariffs for property rates – as set out in attached tariff list,
- 2.2. the tariffs for electricity – as set out in attached tariff list, subject to the approval from NERSA,
- 2.3. the tariffs for the supply of water – as set out in attached tariff list
- 2.4. the tariffs for sanitation services – as set out in attached tariff list
- 2.5. the tariffs for solid waste services – as set out in attached tariff list

In view of the aforementioned, the following table is a consolidated overview of the proposed 2019/20 Medium-term Revenue and Expenditure Framework:

## 1.4 Summary of Operating Revenue and Expenditure

Total operating revenue has grown by **6.3 %** or **R30.737 million** for the 2019/20 financial year when compared to the 2018/19 Adjustment Budget. For the two outer years, operational revenue will increase by **5.3%** and **5.8%** respectively.

Total operating expenditure for the 2019/20 financial year has decreased by **14.1%** or **R97.934 million** and the total amount appropriated is **R598.684 million** including depreciation of R119.015 million and which translates into an operating budgeted deficit of **R76.910 million**.

### 1.5 Operating Revenue Framework

For Setsoto Municipality to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macro-economic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to ensure a 65 per cent (65%) annual collection rate for property rates and other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- The implementation of the new valuation roll;
- Increase ability to extend new services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of the Council.

In line with the formats prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculation of the operating surplus/deficit.

Revenue generated from rates and services charges forms a significant percentage of the revenue basket for the Municipality. Rates and service charge revenues comprise **54.5%** of the total revenue mix. In the 2019/20 financial year, revenue from rates and services charges totalled **R284.886 million**. In the above table revenue foregone arising from discounts and rebates associated with the tariff policies of the Municipality have been taken into account for both property rates and service charges.

As from 01 July 2018, the new valuation roll was implemented and the overall revenue from assessment rates has increased with more than the average increase of 10%. Conversely the increase will not be equally implemented based on the individual valuation and assessment. The tariff structure has been modified between different categories of properties in order to be aligned to the Municipal Property Rates Act (MPRA), MFMA circulars and other legislations governing the property rates tariffs. Thus, no assessment rate increase has been considered and remains the same as the previous financial year.

Service charges on electricity have been increased with 13% in line with the proposed increase by the National Energy Regulation of South Africa (NERSA) while other service charges were increased with an average of 5%.

The municipality are dependent on non-conditional grants for its existence.

The budgeted allocation for employee related costs for the 2019/20 financial year totals R216.114 million (excluding Councillors remuneration) representing a notable increase of 13% when compared to the adjustment budget for the 2018/19 financial year. Filling of critical positions in terms of the approved organisational structure were considered as well as the annual increment based on the ongoing wage negotiations. An increase in the employee related costs is budgeted at an average of 7% and the inclusion of vacant critical positions accumulated an overall increase to 13%.

The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Municipality's budget.

Provision of debt impairment for the 2019/20 financial year amounts to **R50.6 million**. While this expenditure is considered to be a non-cash flow item, it informed the total cost associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues.

Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy as well as the GRAP standards. Note that the implementation of GRAP 17 accounting standard has meant bringing a range of assets previously not included in the assets register onto the register. This has resulted in a significant increase in depreciation relative to previous years. The recurring audit finding from the Auditor General in terms of the depreciation was also taken into account when compiling the budget.

Finance charges consist primarily of the repayment of interest on long-term borrowing (cost of capital) that the municipality has with financial institutions namely DBSA, ABSA and Wesbank. However, the municipality has no intention to acquire any new borrowings in the 2019/20 MTREF.

Bulk purchases are directly informed by the purchase of electricity from Eskom. An increase of 15% has been approved by NERSA.

Other expenditure decreased with 15% or R19.5 million, however the cost containment measures as outlined in the Circular 82 and adopted by the municipal Council still apply.

### **1.7.1 Free Basic Services: Basic Social Services Package**

The social package assists households that are poor or face other circumstances that limit their ability to pay for services. To receive these free services the households are required to register in terms of the Municipality Indigent Policy. The target is to register 10 000 or more indigent households during the 2019/20 financial year, a process reviewed annually.

The cost of the social package of the registered indigent households is largely financed by national government through the local government equitable share received in terms of the annual Division of Revenue Act.

## Part 2 – Supporting Documentation

### 2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget.

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2017) a time schedule that sets out the process to revise the IDP and prepare the budget.

The Mayor tabled the budget key timelines before Council meeting outlining the key activities to be undertaken with strict timeliness. The draft annual budget was tabled in Council on the 28 March 2019 and thereafter the budget was made public for the local community and other spheres of government. The mayoral budget roadshow for local community took place on the week of 23 – 26 April 2019 in all the towns and townships of the Setsoto Local Municipality. The inputs made at these consultation were also taken into consideration in finalising the annual budget.
